1	don't need any more information since it is simply a plan to look good from the outside and has nothing to do with the actually classrooms in SBCUSD	10/2/2017 8:22 AM
2	A person from the district come out once a month to school site to give us information at our staff meetings.	10/2/2017 1:04 AM
3	Administration should be held accountable to the plan and help to create an environment of collaboration within their sphere of influence/school sites. Since the District is an integral part of the Community Plan, the District departments' responsibilities should always be guided by the goals in the document. Also, FUNDS AND STAFFING MUST be a priority to actually enable and sustain the Community Plan. San Bernardino could REALLY benefit from a TRUE commitment to the Community Plan. It really does start with the youth and the Districts' commitment to provide the necessities of these programs.	9/28/2017 2:25 PM

15	seeing the plan living and breathing through the district managers!	9/25/2017 11:38 AM
16	I have been employed by the district for several years now. In my experience, classified employees are not given access to important pieces of information. In this case, the Community Engagement Plan. A second area that classified employees currently have limited or no access to is the WASC Program. Until changes are made that allow all district employees access to important information, including classified employees in surveys such as these is very ineffective.	9/25/2017 11:23 AM
